KINDERGARTEN ONLINE RESOURCES

In Kindergarten we use many online resources to support our learning during the day. Below, you can find links to various websites we use. Some sites may ask for usernames and passwords to access, while others may not. Please feel free to contact us with any questions or concerns regarding log-in information for a site. We are glad to help! Happy Surfing!

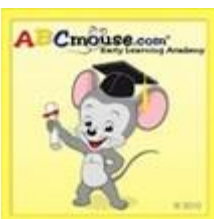

MobyMax is our most widely-used technology resource this year. It will be used to access cross-curricular content as well as for formative assessments. Select St. Columbkille School, then type in child's first name to access the site. Click here to log in.

We are active on Flipgrid. Please send me a note or email if you would like more details.

Starfall.com has many fun videos and songs that students truly enjoy. Click here to visit the site.

Please send me a note or an email if you would like your child to receive access to an account. Click here to open abcmouse.com in a new window.
